

Notice for Passengers from NH931

Thank you very much for your continued and loyal support of ANA.

The following is a detailed description of the relevant process after your arrival at Shenzhen Baoan International Airport.

◆ Preparation in advance

When traveling to China, you will need a "China Customs Immigration Health Declaration" in addition to the "Green Health Code Application". Please check the ANA website for details and be sure to prepare in advance. If you are not prepared in advance, you may not be able to travel to China or it may take some time to deplane.

◆ Notes unique to each airport

According to the announcement issued by the Embassy of the People's Republic of China in Japan on November 27, 2020, starting from 0:00 on December 1, 2020, all Chinese and foreign passengers who are to fly from Japan to China must take nucleic acid and IgM anti-body tests within 2 days (Subject to the date of sampling) before boarding and apply for a green health declaration code ("HS" or "HDC") with certificates of negative results of both tests and then board within the validity period of the health code. The previous practice of boarding with paper proof is no longer applicable.

Upon arrival at Shenzhen Airport, Passengers need to wait inside the aircraft and in the designated quarantine area for temperature measurement and health condition check.

All inbound passengers are requested to fill out the "Health Declaration for Exit/Entry Passengers" in advance and show the QR code issued to you to a quarantine officer upon arrival at Shenzhen Airport.

All passengers are quarantined for 14 days at government designated facilities upon arrival in Shenzhen. If you travel to another city in China later, you may need to increase your quarantine time in that city. Please kindly note that the accommodation, meals and other expenses incurred during the quarantine period will be borne by the passenger himself.

Thank you for your understanding and kind cooperation.
